

Deserve Each Other

bludnymph

I wrote you a song
I did you dirty but you did me wrong
I guess that we deserve each other
Pick up the phone
I never answer and you never call
I guess that we deserve each other

Did me disgusting but I fight the nasty way
Doomed to dysfunction, that's making me panic
I can't tell if you're normal
Maybe you're a masochist
This love is a warzone
How many rounds can we go

If I dish it, you can take it
Then you make me take it off
I miss it, then I hate it, then I treat you like a god
Addicted to the feeling, need a taste I'm in withdrawal
I hate you so much that I love it

I wrote you a song
I did you dirty but you did me wrong
I guess that we deserve each other
Pick up the phone
I never answer and you never call
I guess that we deserve each other

La La La La
I guess that we deserve each other
La La La La
I guess that we deserve each other
La La La La
I guess that we deserve each other
La La La La
I guess that we deserve each other

SOS
I don't care
Call the lord send a prayer
I'm not, you not, goin nowhere
Even though we not goin nowhere
I, I like to scream
You don't talk, you make a scene
I go stupid, you go crazy
Kiss me, love me, fight me, hate me

If I dish it, you can take it
Then you make me take it off
I miss it, then I hate it, then I treat you like a god
Addicted to the feeling, need a taste I'm in withdraw
I hate you so much that I love it

I wrote you a song
I did you dirty but you did me wrong
I guess that we deserve each other
Pick up the phone
I never answer and you never call

I guess that we deserve each other

La La La La

I guess that we deserve each other

La La La La

I guess that we deserve each other

La La La La

I guess that we deserve each other

La La La La

I guess that we deserve each other

(I guess that we deserve each other)
