

# I WANNA WIN

bludnymph

Uphill pedal  
You wanna get on my level  
I heat it up like kettle  
No competition, no metal  
No opposition, I'm special  
Know what I'm worth, won't settle  
I'll give you wings like Redbull  
I got my horns like the devil  
Get to me, yep that's ready  
They say it tastes real yummy  
You are such a joke, it's funny  
Ventriloquist, bitch you a dummy  
I'm bright like a light so sunny  
Imma unwrap this shit like a mummy  
I am not his bitch but he still call me honey  
I am so rich, not just talking money

I wanna win, I wanna win  
I'm gonna win, I'm gonna win  
Do it again, do it again  
I stunt on they necks and I smile with a grin  
I wanna win, I wanna win  
I'm gonna win, I'm gonna win  
Do it again, do it again  
I stunt on they necks and I smile with a grin

Know how to work my pelvis like I'm Elvis  
I come first, I'm selfish  
Fantasy, I'm elvish  
I'm a witch bitch, Imma make you perish  
No days off, don't call me Ferris  
Might take off and go to Paris  
Might touch down, raise hell like a menace  
Then take off like a bitch when I finish  
Stupendous, your style horrendous  
Tremendous, my independence  
Transcendents to different planets  
Commend us but don't offend us  
Don't cleanse us, our spells are endless  
Intended, to come with vengeance  
Befriend us but don't offend us  
You wanna be my apprentice, but

I wanna win, I wanna win  
I'm gonna win, I'm gonna win  
Do it again, do it again  
I stunt on they necks and I smile with a grin  
I wanna win, I wanna win  
I'm gonna win, I'm gonna win  
Do it again, do it again  
I stunt on they necks and I smile with a grin

And now she frazzled, she's been treating them like animals  
Make us eat out a hannibal  
That bitch a fucking cannibal  
But she taste sweet like cantaloupe  
And maybe we could both elope

I like 'em bad, I like 'em dope  
I like to tie them up in ropes

I wanna win, I wanna win  
I'm gonna win, I'm gonna win  
Do it again, do it again  
I stunt on they necks and I smile with a grin  
I wanna win, I wanna win  
I'm gonna win, I'm gonna win  
Do it again, do it again  
I stunt on they necks and I smile with a grin
