

Lights Out

bludnymph

You're pissing me off just a little bit
You're making me hot just a little bit
If you keep it up, I'm not having it
I'm doing some shit that I never did
The good and the bad side are 'bout to split
If the jokes on me, then riddle this
Open your mouth and you get a stitch
I'm throwing a tantrum, little kid

I'm in the car, under the stars, I'm on the way to your house
I'm feelin' harsh, lock all your doors, you hidin' under the couch
I wanna know, I wanna talk, tell me what this is about
When in doubt, shut your mouth or lights out, bitch

Who the fuck do you think that you are?
Play my heart, I'll tear you apart
Whisper in your ear
Become all your biggest fears (Ah-ah, aah)
You can run, baby, but you can't hide
Hurt me once and you're paralysed
Whisper in your ear
I'll be all your biggest fears
Hm-mm, it's lights out, bitch

Shatters of glass, they be everywhere
Don't watch your step, I don't fucking care
I'm in your blind spot, unaware
'Cause I threw my feelings down the stairs
I'm not myself when I get like this
But you bring it out of me, exorcist
Temporary is this temperament
Please, take my mug shot for reference

I'm in the car, under the stars, I'm on the way to your house
I'm feelin' harsh, lock all your doors, you hidin' under the couch
I wanna know, I wanna talk, tell me what this is about
When in doubt, shut your mouth or lights out, bitch

Who the fuck do you think that you are?
Play my heart, I'll tear you apart
Whisper in your ear
Become all your biggest fears (Ah-ah, aah)
You can run, baby, but you can't hide
Hurt me once and you're paralysed
Whisper in your ear
I'll be all your biggest fears
Hm-mm, it's lights out, bitch

It's lights out, bitch
