

Chill out  
Chill out  
I don't have the energy  
I talk but you shout  
Can we just text, ooo please remember  
Let's forget that got a fucked up memory  
I'm defense, you on the attack  
Put down the baseball bat

Plannin conversations  
Mind's been racin  
Actin out our altercations  
Never enough preparation  
For your fits, your throwin flailin  
How we always crashin, bailin  
Arguments they always trailin  
On and on  
I'm always wrong  
You always right  
Don't wanna fight

Chill out  
Chill out  
I don't have the energy  
I talk but you shout  
Can we just text, ooo please remember  
Let's forget that got a fucked up memory  
I'm defense, you on the attack  
Put down the baseball bat

I'm so relaxed  
You so angry  
Can you step back  
Can you breathe deep  
You got off track  
I'm just talking  
Why do you crack  
Take a walkin  
Shake it off  
Just shake it off  
This angry face  
Just take it off  
I've done enough  
I've had enough  
The way you treat me's  
Way too rough  
I am not a play dough you can mold  
I was never one to be controlled  
Can't make me italic when I'm bold  
This attitude you givin getting old

Chill out  
Chill out  
I don't have the energy  
I talk but you shout  
Can we just text, ooo please remember  
Let's forget that got a fucked up memory

I'm defense, you on the attack  
Put down the baseball bat

Chill out  
Chill out
