This must be love  
I wanna hold you baby  
This must be love  
I wanna kiss you baby  
This must be love  
I wanna touch you baby  
This must be love  
I really need you baby

I wanna hold you when I want to  
I need your every touch  
I wanna kiss you, love you, hate you  
I need you every day, every night

I'm gonna break the rules just for you  
I'll do it here and now  
I'm gonna break my heart to show you  
I'm burning all inside, all the time

Cherish my love...

Maybe they'll say that I am crazy  
But I don't give a damn  
Maybe they'll mock me I don't care 'cause  
I'm gonna f\*\*k them all, f\*\*k it now

I'll do it just for you my baby  
Because I need you so  
I beg you honey don't you screw it  
Cause I will disappear, is that clear
