Babe do what you feel
Babe feel what you see
Babe just you and me now
Babe do what you feel
Babe feel what you see
Babe just you and me now

You know, I like to see if you care about me
Show me what your love can bring
I'll never be the queen if you're not my king
You're the one - why can't you see?

I will be waiting, stay closer
I will be waiting forever

When you already know
You're the one, why can't you see?
When you already know
You're the one, why can't you stay?

I will be waiting, stay closer
I will be waiting forever

I'm gonna love you more than anyone
I'll give you all I have
Cause you're the best

I will be waiting, stay closer
I will be waiting forever

Babe do what you feel
Babe feel what you see
Babe just you and me now
Babe do what you feel
Babe feel what you see
Babe just you and me now

Babe do what you feel
Babe feel what you see
Babe just you and me now
Babe do what you feel
Babe feel what you see
Babe just you and me now
