Better When We Try

Blue Cheer

Turn yourself around
Stop looking at the ground
Things will be much better if you try
When I feel your love next to mine
I forget about space and time

Sing yourself a happy song
Things aren't always, always wrong
We can make it better if we try
When things are good and things are bad
Our love is all we really have

When the cloud is past away
And the sun comes out to stay
I'll remember days like this with you
When we made things better 'cause we tried
Then our love is stronger deep inside
