

## Blinded Light

Blue Foundation

I don't regret it at all  
Searching the garden  
The sight of you makes me feel so blue

All the things in my head  
All the things that you said  
You'll push it too far

Blinded light  
We'll be strolling through the darkest night  
You'll be holding my hands so tight  
Avoiding to fall

You'll get caught in your part  
Watching you falling  
The sight of you makes me feel so blue

All the things in my head  
All the things that you said  
You'll push it too far

Blinded light  
We'll be strolling through the darkest night  
You'll be holding my hands so tight  
Avoiding it all

Blinded light  
We'll be strolling through the darkest night  
You'll be holding my hands so tight  
Avoiding to fall
