

## The Fall

Blue Foundation

Stake out, searching for the boy  
You wouldn't let him talk

Caught him shaking, reaching down  
You can't let him fall  
Let him fall

He don't know what to say  
When his heart is cold and you're asking him to stay  
He don't know what to say  
When the sky is bright, shining through this way

Slip out, running through the day  
You can't let him walk  
Let him walk

He don't know what to say  
When his heart is cold and you're asking him to stay  
He don't know what to say  
When the sky is bright, shining through this way

Bright light astray  
Bright heart at bay  
Bright light astray  
Bright heart at bay
