

Four Leaf Clover

Blue Magic

Let a rose deep in your heart, my dear
Color rainbows and a daffodil
Showers from above to cool your day
Magic flowers never fade away

Love soon to unfold, your four leaf clover
Your fantasy knows, it's never over
A soft summer breeze, birds sweetly singing
Love is the answer, dreams in the making
Love soon to unfold, your four leaf clover
Your fantasy knows, it's never over (Over)

Wish upon a fairy tale today
Board our magic ship and sail away
Just believe and you can make it true
Plant some flowers joy will give to you

Love soon to unfold, your four leaf clover
Your fantasy knows, it's never over
A soft summer breeze, birds sweetly singing
Love is the answer, dreams in the making

A four leaf clover, dreams never over
A four leaf clover, dreams never over
A four leaf clover, dreams never over
A four leaf clover, dreams never over

A four leaf clover, it's never over
A four leaf clover, dreams never over
A four leaf, a four leaf clover, it's never over
A four leaf clover, dreams never over
A four leaf, four leaf clover, dreams are never, never over
