

It's Like Magic

Blue Magic

My heart flew around
On a silver lining
Riding on a cloud
Changes go around
And the hurt is over
Because of changing time

Suddenly I looked into your eyes
I can see
Feelings that you have deep inside
Just like me
I'm so glad that you are here to stay

It's like magic when you came
You make me so happy and I'll never be the same
It's like magic when you came
You make me so happy and I'll never be the same

Secretly I cried
And I tried to run
Because of foolish pride
But now I hold you tight
And you share your feelings
I'm such a lucky guy

Suddenly my life is not the same
You can see
I have found the girl that makes me sane
You and me
I'm so glad that you are here to stay

It's like magic when you came
You make me so happy and I'll never be the same
It's like magic when you came
You make me so happy and I'll never be the same
...
