

## Looking For A Friend

Blue Magic

Since the last time I saw you  
I'm still thinking of you again  
Can't get you off my mind  
Still feel your lips on mine  
Never thought that you would love me again

It's the last time you need me  
But I still want to see you again  
And we can share a secret  
Still feel your fingers creeping  
Oh, there I go just thinking of you again

I can keep you so warm...

It's the last time I needed you  
I won't think I'll ever leave again  
I can't fight this empty feeling my world is falling end  
I'm looking for a friend, looking for a friend, looking for a friend...

I'm so glad I found you  
Been searching everywhere, everywhere

Can't think of nothing  
So I'm gone back to walking again  
The streets I walk are lonely  
Still think my love will only  
Would never thought that you would find me again

I can keep you so warm...

This the last time I needed you  
I don't think I'll ever leave again  
I can't fight this empty feeling my world is falling end  
I'm looking for a friend, looking for a friend, looking for a friend, looking for a friend  
I'm so glad I found you been searching everywhere, everywhere  
Looking for a friend my world is falling end  
Looking for a friend, but my world is falling end  
Looking for a friend, I'm so I found you  
Been searching everywhere, everywhere, everywhere  
My world is falling end...
