

Stringin' Me Along

Blue Magic

You're just stringin me along
How can I go on
You're just stringin me along
Tired of holdin on
To a dream

Every time I see your face
I know it's the same
You won't ever change your ways
Because it's your game

Gave you all the best of me
(Of me)
But you were to blind to see
Well, I've taken all I can take
And that string is about to break

You're just stringin me along
How can I go on
You're just stringin me along
Tired of holdin on
You're just stringin me along
Tired of holdin on
To a dream

Morning comes and you're not here
I wait all alone
Packed my bags I'm leavin here
Goodbye - Yes, I'm gone

Think it's time for us to part
(To part)
I have to try to save my heart
Well, I've taken all I can take
And that string is about to break

You're just stringin me along
How can I go on
You're just stringin me along
Tired of holdin on
You're just stringin me along
How can I hold on
To a dream

Gave you all the best of me
(Of me)
But you were to blind to see
Well, I've taken all I can take
And that string is about to break

You're just stringin me along
How can I go on
You're just stringin me along
Tired of holdin on
You're just stringin me along
Tired of holdin on
To a dream

Ohh, stringin me along
You're just stringin me along
Takin' me for a ride
Stringin me along
You're just stringin me along
Stringin me along
You're just stringin me along
You're just takin me for a ride
Stringin me along, oh
Stringin me along
You're just stringin me along
Stringin me along
You're just stringin me along
