

All I See Is You

Blue October

What was it like before I met you?
I can't remember how it went
How many ways did I spend just trying
To do the love you recommend?

Yeah it works but you do it all wrong
There's perks, there's money gone
I collide into a place with silence
What silence? Wet silence

What's it like before I met you?
I can't remember how it went
All the things that I dismember
All the words I never said

Yeah it works but you do it all wrong
There's perks til the money's gone
You collide in a place where nothing
What silence? Wet silence

All I see is you (Let's burst til the money's gone)
(There's perks til the-, there's perks til the-)
Yeah all I see is you (Let's burst til the money's gone)
(There's perks til the-, there's perks til the-)
And all I see is you (Let's burst til the money's gone)
(There's perks til the-, there's perks til the-)
All I see is you (Let's burst til the money's gone)
(There's perks til the-, there's perks til the-)

She the girl with the delicate eye
I'll show her with my own
No one holds me like you do
Every day we're so apart

I don't want you to buy me nothing
I just want to hang out with you
I collide into a place with silence
What silence? Wet silence

What was it like before I met you?
I can't remember how it went
All the days I spent destroying
A love you recommend

I really like that I get to miss you
'Cause I love to be alone
We collide into a place where silence
What silence? Wet silence

All I see is you (Let's burst til the money's gone)
(There's perks til the-, there's perks til the-)
Yeah all I see is you (Let's burst til the money's gone)
(There's perks til the-, there's perks til the-)
And all I see is you (Let's burst til the money's gone)
(There's perks til the-, there's perks til the-)
All I see is you (Let's burst til the money's gone)
(There's perks til the-, there's perks til the-)

All I see is you (Let's burst til the money's gone)
(There's perks til the-, there's perks til the-)
Yeah all I see is you (Let's burst til the money's gone)
(There's perks til the-, there's perks til the-)
And all I see is you (Let's burst til the money's gone)
(There's perks til the-, there's perks til the-)
All I see is you (Let's burst til the money's gone)
(There's perks til the-, there's perks til the-)

(There's perks til the money's-, the money's-)

(There's perks til the-, there's perks til the-)
(There's perks til the-, there's perks til the-)

With me in front of you
The lights are blue
Let heaven rain down
When all I see is you
