Blue October

I never thought that you'd fall for me
There's an ache, I'm awake, and you're healing still
On a one-way street, you're behind me
I've got an empty seat, and it's meant for you

Now you're turning me on as you're climbing in
I've got one hand on the wheel, and one hand on you
Nothing gets between us, I feel you
We're on a one-way street, yeah, meant for two

You are a shining star
No matter where you are
You're never second best
You are my one, completely

I could've left, but for you I'll stay
No matter what they say
You're never second best
You are my one, completely

And now the streetlights are falling in
Every wave of light, I catch a glimpse of you
You're making me dizzy, you're curing me
I had an empty seat, now it's filled with you

I hear the ocean calling
It's 3am, so we park in the sand
Nothing gets between us, I feel you
We're on a one-way street, yeah, meant for two

You are a shining star
No matter where you are
You're never second best
You are my one, completely

I could've left, but for you I'll stay
No matter what they say
You're never second best
You are my one, completely

Completely
Completely
Completely

Completely

You are a shining star
No matter where you are
You're never second best
You are my one, completely

I could've left, but for you I'll stay
No matter what they say
You're never second best
You are my one, completely

Completely

You are my one, completely
