

# Daylight

Blue October

Everybody has a secret  
Real pain that they all conceal  
Maybe mine is contagious  
With time it can make you feel  
Like a fake, like a failure  
All I wanted was a brand new start  
I never needed to remember  
When the truth can break your heart

Ooh now I got it all out  
It's all on the floor

Come party with me in the daylight  
Yeah with me  
Come party with me in the daylight  
Come party with me in the daylight  
Yeah with me  
Come party with me  
Before the daylight gets away from me

I wear a mask in the spotlight  
Backstage there's a room so dark  
I'm not even going in there  
I'm afraid it would tear us apart  
There's a sun when the dawn breaks  
There's a light that will lead you home  
When the truth is contagious  
This is all we need to know

Ooh now I got it all out  
It's all on the floor

Come party with me in the daylight  
Yeah with me  
Come party with me in the daylight  
Come party with me in the daylight  
Yeah with me  
Come party with me  
Before the daylight gets away from me

Come party with me in the daylight  
Yeah with me  
Come party with me in the daylight  
Come party with me in the daylight  
Yeah with me  
Come party with me  
Before the daylight gets away from me
