The light to help you see

```
Am Em
Losing my control
        Am Em
Here it is the day I have to go
Just sit beside me
           Am Em
I can't let this show
                 Am Em
How sick I feel to leave you so alone
God I'm terrified
We've lost respect for decency
When one could turn our world into an ant pile
We run circles, no direction do I see
The dust has blinded you, the dust has blinded me
                      G
I kissed her on the cheek and then I waved goodbye
She had the saddest look I've seen in years - a kangaroo cry
A warm pathetic ocean flow we have to live by
We have to live by
Because we have to live
And you choose to break our families
Tell me you've used all precautions known
And I'll stand beside the ones who stood alone
How long will we have to sing until you finally bring our sons,
Our daughters home?
We'll let the prayers start healing, what time's been stealing
C Am Em (2x)
                      Am Em
We only want to feel as close as we can be
                         Am
Use hands for holding on to your precious family
Just believe in all who shine

                   Am Em
Cause if I believe in you, will you believe in me?
I kissed her on the cheek and then I waved goodbye
She had the saddest look I've seen in years - a kangaroo cry
A warm pathetic ocean flow we have to live by
We have to live by
Because we have to live

And you choose to break our families
Tell me you've used all precautions known
And I'll stand beside the ones who stood alone
How long will we have to sing until you finally bring our sons,
Our daughters home?
We'll let the prayers start healing, what time's been stealing
Been stealing.
Keep hanging on
Keep hanging on
Keep hanging on
Keep hanging on
We'll let the prayers start healing, when time's been stealing
C Am Em (4x)
