

King

Blue October

Follow your heart
Follow your feet, your soul
Follow your dreams wherever they go
And never slow down
And find someone to share it with and...
And then never let them go

Hold me close, closer than ever before
(Ooh ah) Love me like you won't let go
With all that I know, with all that I am
(Ooh ah) Love me like you won't let go

We light up the dark
Light up the streets with gold
Follow your dreams wherever they go
And never slow down
Find someone to share it with and...
And then never let them go

Hold me close, closer than ever before
(Ooh ah) Love me like you won't let go
With all that I know, with all that I am
(Ooh ah) Love me like you won't let go

When you strip away everything
You're in my arms, I feel like a king
Holding you close
I-I-I love you like I won't let go

And when you take away everything
Just you in my arms, I feel like a king
Holding you close
I-I-I love you like I won't let go

Hold me close, closer than ever before
(Ooh ah) Just love me like you won't let go
With all that I know, with all that I am
(Ooh ah) Love me like you won't let go
