

Oh My My

Blue October

You wear black hair I have blue
You look sadder than most girls do
The way you walk around
Always watching the ground
Well I like watching you

Your friends, they don't like me
I think they're jealous of my tattoos
I'm not a bad guy
Just like wearing black
I'm not scared of anything
But saying this to you

It's going down, neither of us wanna be alone right now

come on come on

Oh my my
Yeah I'm loving all your warning signs
Cause I'm a sucker for you oh my my
Girl you get me high
Yeah you're my type, you're danger, danger

Yeah I'll be waiting by the blacktop
Like a cigarette stain for you
Every day I just won't go away
I'm not scared of anything
But saying this to you

It's going down, neither of us wanna be alone right now

what what you're gonna do

Oh my my
Yeah I'm loving all your warning signs
Cause I'm a sucker for you oh my my
Girl you get me high
Yeah you're my type, you're danger, danger

Oh my my
Yeah I'm a sucker for the lonely kind
Because I'm loving all your oh my my
Girl you get me high
Yeah you're my type, you're danger, danger

I can
I'll go anywhere you want me
You want me to
Caught my eye
Watch us free fall
Catch me, I'll catch you too

I can
I'll go anywhere you want me
You want me to
Caught my eye
And now we free fall

Catch me, I'll catch you

Oh my my
Yeah I'm in love with all your warning signs
Cause I'm a sucker for you oh my my
Girl you get me high
Yeah you're my type, you're danger, danger

Oh my my
Yeah I'm a sucker for the lonely kind
Because I'm loving all your oh my my
Girl you get me high
Yeah you're my type, you're danger, danger
