

# Only Lost is Found

Blue October

Anyone can set alarms  
I come creeping like a fable  
And you ask me if I'm able  
And all in, but, it might help if you were gone

But I've nowhere left to turn  
My God is staring through the starlight  
At the wound hid behind my cheek and  
With the look of my birthday beak and  
I'll stay and live here in the dark

Hold against the ground  
Way beneath the Earth it goes around  
I'll climb the wall if I am able to  
But only lost is found

A warm, sedated kind of love  
It's a lonely miracle  
I stand until I don't believe my eyes  
I found the light above

I've lifted all I can  
So I turn to the page of our connection  
I need you here with me, I'm willing, I'm kneeling  
A place where I belong

Pain, the worst is finally gone  
Way, way beyond the signals  
I know you're used to suffering  
But love will take some time

Hold against the ground  
Way beneath the Earth it goes around  
I'll climb the wall if I am able to  
But only lost is found

A warm, sedated kind of love  
It's a lonely miracle  
I stand until I don't believe my eyes  
I found the light of God  
The light of God

Our smile will not forget us, no  
He marks it slowly  
Just pull me in your arms below  
Get out but  
The water's always ready
