

# Sideways

Blue October

I don't need shit  
And nothing hurts  
I make money, fuck you  
I bet you I can move mountains  
To California  
I take money, eat you up

We created a whole world where we kept ignoring exactly how we  
felt  
So don't let the music die  
Don't let it bring you down, keep roaring  
Say exactly how you feel when everything's sideways  
When everything's sideways

I've never been responsible  
But I don't give up  
I make money, fuck you  
I'm out here making idiots angry  
So don't fuck this up  
Like honey, eat you up

We created a whole world where we kept ignoring exactly how we  
felt  
So don't let the music die  
Don't let it bring you down, keep roaring  
Say exactly how you feel when everything's sideways  
When everything's sideways  
When everything's sideways

We created a whole world where we kept ignoring exactly how we  
felt  
So don't let the music die  
Don't let it bring you down, keep roaring  
Say exactly how you feel when everything's sideways  
When everything's sideways
