

Slow Down

Blue October

Now that we're here
Now that we're way down
In from the cold
Finally slow down
Waited for years
Oh, how you haunt me
My breath to your ears
Your body, it haunts me

Oh, just for tonight
Oh, just the two of us here right now
Oh, just for tonight we, we shut out the world
And let it go
Slow down
We let it go
We slow down

Now that you're here
Now that we're way down
In from the cold
Finally slow down
Dreamed of this for years
God, how it haunts me
And mouth to your ears
Your body, it haunts me

So just for tonight
Oh, just the two of us here right now
Just for tonight, oh, we shut out the world
And let it go
And slow way down
We'll let it go
Slow down
