

Spinning the Truth Around

Blue October

Driving home with the radio on
Got it tuned to the loneliest station I know
Getting low
Where'd we go wrong and don't you see
I feel the autumn wind chill
With the top down sinking in our old Bonneville
Driving home, yeah
Where'd we go wrong and can't you see?

So I bend a little
How do we climb back up from here?
Give a little
Can we give it all?
Yeah, we've been through this before

I don't want change, we both want more
I'll give it a minute
Stay close by and wait 'til the truth comes up
I don't want change, we can't ignore
We've given it a minute
We'll just stand here spinning the truth around
(We've given it a minute)
Spinning the truth around
(We've given it a minute)

Settling is easy, getting used to a drought
Dancing in the rain that put our fire out
Wondering if it's ever gonna spark again
Wondering if you'll ever try that hard for me

If away from me is where you belong
And the feeling that you're after doesn't stay when you're gone
Let me know
Where'd I go wrong and can't you see?

Leave a light on
How do we climb back up from here?
Give a little
Could we give it all?
Yeah, we've been through this before

I don't want change, we both want more
I'll give it a minute
Stay close by and wait 'til the truth comes up
I don't want change, we can't ignore
We've given it a minute
We'll just stand here spinning the truth around

I don't want change, we both want more
I'll give it a minute
Stay close by and wait 'til the truth comes up
I don't want change, we can't ignore
We've given it a minute
We'll just stand here spinning the truth around

We've given it a minute
Spinning the truth around

We've given it a minute
Wait 'til the truth comes up
Spinning the truth around (We've given it a minute)
We'll just stand here spinning the truth around
