

# Edge of the World

Blue Öyster Cult

How many truths can you hold on to?  
How many lies have you been told?  
How many times have you been under  
Another system of control?

Trusting everything you read  
Lost in your conspiracies  
I want to believe

Cover ups and blacked out lines  
Everything is classified  
Follow me down the rabbit hole

You want the facts now listen to me  
Only the truth can set you free

Meet me at the edge of the world  
To watch it all burn  
Forget what you learned

Meet me at the edge of the World  
To watch it all burn  
You'll never return

The second time I was abducted  
I tried so hard to stay aware  
With all their evil drugs coursing through my veins  
I lost my inhibitions to the darkness in their stare

Trusting everything you read  
Lost in your conspiracies  
I want to believe

Cover ups and blacked out lines  
Everything is classified  
Follow me down the rabbit hole

You want the facts now listen to me  
Only the truth can set you free

Meet me at the edge of the world  
To watch it all burn  
Forget what you learned

Meet me at the edge of the World  
To watch it all burn  
You'll never return

Meet me at the edge of the World  
To watch it all burn  
You'll never return

Meet me at the edge of the world  
To watch it all burn  
Forget what you learned

Meet me at the edge of the World

To watch it all burn  
You'll never return

Meet me at the edge of the world  
To watch it all burn  
Forget what you learned

Meet me at the edge of the World  
To watch it all burn  
You'll never return

You'll never never never return
