

# Venus Rising

Blue Rodeo

Do you know what you're doing  
Now that he's gone you're all alone  
Except for the band  
Few hundred friends  
That paid to attend

Is it because venus is rising  
Burnin' a hole in your heart  
You're having such a hard time deciding  
And you don't know how to stop  
The whiskey and applause  
Just another way  
To get lost  
Cause you don't want to remember  
When you used to treat him better  
When you used to treat him better

If you could learn  
How to play that guitar  
You sure could go far  
Cause when you sing  
You sure know how  
To break a heart  
You sure know how  
To break a heart

Is it because venus is rising  
Burnin' a hole in your heart  
You're havin' such a hard time deciding  
You don't know how to stop  
The whiskey and applause  
Just another way to get lost  
Cause you don't want to remember  
When you used to treat him better  
When you used to treat him better

If you could learn  
How to play that guitar  
You sure could go far  
Cause when you sing  
You sure know how  
To break a heart  
You sure know how  
To break a heart

Is it because venus is rising  
Burnin' a hole in your heart
