Let's Do It Together

Blue Six

Life can be hard Light before darkness And things you thought were certain Come undone Friendships turn cold And lovers grow older And people make excuses For what's gone bad We'll find another way You don't have to be alone Let's do it together Let's do it together Let's do it together Rivers run dry Tears that won't cry And pleasures you can count on Turned to dust Governments lie Politicians tire me And nothing on my TV Is getting any better This time won't be the same I'll be with you all along Let's do it together Let's do it together Let's do it together Together, oh You are, you are the one Let's do it together You are, you are the one Let's do it together You are, you are the one Let's do it together You are, you are the one You are, you are the one Let's do it together You are, you are the one Let's do it together You are, you are the one

Let's do it together

You are, you are the one

You are, you are the one You are, you are the one You are, you are the one You are, you are the one

Together Together

Together Together

Together Together

You are, you are the one You are, you are the one You are, you are the one You are, you are the one
