

# Kill Me Every Time

Blue Stahl

Take me  
Break me  
Take me  
Break me

You kill me every time  
You kill me every time

I feel your last conviction,  
And I'm underneath  
You kissed me with a bullet,  
Between your teeth

You like the way that I struggle,  
You're my favorite sin  
I'm playing the willing victim,  
And when I give in

You kill me every time (You kill me every time)  
You kill me every time (You kill me every time)  
You kill me every time (You kill me every time)

And you break me (You kill me every time)  
And you take me (You kill me every time)  
And you break me (You kill me every time)  
And you take me (You kill me every time)  
And you break me

Go down a little lower,  
Taste your skin  
Move in a little slower,  
Breathe you in

Swallowing all submission,  
And I suffocate  
One last inhibition,  
To penetrate

You kill me every time (You kill me every time)  
You kill me every time (You kill me every time)

And you break me (You kill me every time)  
And you take me (You kill me every time)  
And you break me (You kill me every time)  
And you take me (You kill me every time)  
And you break me

And you break me,  
And you take me  
And you break me,  
And you take me  
And you break me,  
And you take me,  
And you break me

You kill me every time  
You kill me every time

You kill me every time  
You kill me every time

And you take me (You kill me every time)  
And you break me (You kill me every time)  
And you take me (You kill me every time)  
And you break me

You kill me every time (And you take me)  
You kill me every time (And you break me)  
You kill me every time (And you take me)  
You kill me every time

(You kill me every time)
