

# Every Day, Every Night

Blue System

Every night, every day - oh, I'm searching for my way  
And I'm dreaming of you all my life  
Every night, every day - oh, believe me, oh, I pray  
Set the dream to your heart to survive  
Every night, every day - oh, I'm searching for my way  
And I'm dreaming of you all my life  
Every night, every day - oh, believe me, oh, I pray  
Set the dream to your heart to survive

I saw love in her eyes  
Promised paradise  
Every night, every day  
Baby, oh, I pray  
Oh she lied - when she cried  
She can not hide  
She was sad, so sad  
Really 'twasn't mad  
I saw love in her eyes  
And my paradise  
Every night, every day  
Hard for me to say  
I was blind, so blind  
Couldn't realize  
That my heart, oh, my heart was so hypnotised in you

Every night, every day - oh, I'm searching for my way  
And I'm dreaming of you all my life  
Every night, every day - oh, believe me oh I pray  
Set the dream to your heart to survive

Oh, I cry, I cry forever  
Why can't we stay together?  
Can't you see my life is in your hands?  
Oh, I cry, cry forever  
Baby, I will love you ever  
Can't you see my life is in your hands?  
Can't you see my life is in your hands?

Oh, it hurts that she's gone  
Feeling so alone  
Every night and every day - hope to awake  
Come back - please, come back  
Always in my head  
Only you make me blue  
What else can I do  
Can't I find in your mind  
You're the lonely kind  
Every night and every day  
Believe me when I say  
I need you, just you - couldn't realize  
That your heart in my heart was so specialised in me
