

I'm Not That Kind Of Guy

Blue System

She walked to the room and she asked me to dance
I got a heart for a second chance
She was kissing me - all the night away
I've got what you need babe, it's true
I give it up just for you
She was kissing me baby all the night away
She's just like a bird - flying alone
But she will make it, baby on her own
Even when I'm fall in love with you
She was holding me

Dancing all the night away
I'm not that kind of guy - who's breaking lonely hearts
I'm not that kind of guy - who breaks a promise in the dark
I'm not that lonely child - who's fighting for a start
I'm not that kind of guy - who's breaking just a lonely heart
You know I'm born at the wrong side of town
But you can keep a good man down
She was kissing me baby all the night away
I'm just like a child in a Hollywood night
How can I win if you do not fight ?
She was kissing me baby all the night away
She took my love - my love for two
There will be never another you
Even just a fool don't let you go
Come fly with me on the wings of love
She loved me and I need that stuff
Dancing all the night away
