

Laila, laila, laila, laila, lai  
Laila, laila, laila, laila, lai

Laila, laila, laila, laila, lai  
Laila, laila, laila, laila, lai

I'm justified and banned, baby for your love  
Oh, I need you every day  
I don't care, my feelings are just enough  
This time, oh we'll go my way  
It's not a problem, please don't go away  
I don't care what people say

Laila, laila, laila, laila, lai  
Oh I miss you laila  
Laila, laila, laila, laila, lai  
Oh I need you laila

Oh, laila it's like ecstasy  
Are you ready, oh come fly with me  
Oh, little laila, I make dreams come true  
In a land of love for me and you

Anytime I see you, I'm hypnotized  
Why we're going separate ways  
The mystery of love, babe I'm specialized  
Oh, I miss you every day  
Oh, we're searching just together, girl  
Baby, for a better world
