

Save Me

Blue System

Oh, take the midnight train, in the rainbow drive
The king of the clown is dancing disco
I want the book of life, baby, in that nightcaf?
We're dancin' all night on the champs elyssees
Oh, I'm born to lay in this heartbeat hotel
Diamonds are forever, my mother would tell
In the midnight train to l.a.
On the wide hall, baby, it's okay

I said save me
Take a trip like did before, love me
Help me, lady, my love
Save me, don't look back and don't look sad
Love me, heartache in my Cadillac
Help me, heart to heart and soul to soul

Come on and shake it out
Come on, play a love

I wanna shake it out, shake it on the groove
Marylin is dancing on the hotel roof
I know the unknown soldier on the unknown land
He's just playing just for in the freedom
I wanna shake it out, wanna shake it of you
Is easy, come
I wanna a geisha girl and some voodoo nights
I wanna rock you baby in savanna nights

I said, save me
Take a trip like did before, love me
Dancing to the,
Help me, cheek to cheek I feeling need
Save me, don't look back and don't look sad
Love me, heartache in my Cadillac
Help me, heart to heart and soul to soul
