

Let's Get Sad

Blue

Confused, I'm twisted in my blues
I haven't slept for days, and I need new shoes
Daylight, daylight, daylight, come
'Cause I need to get away, please show me the sun

You said that I was suffocating you
But it was you that made me fall for you
If I knew all your feelings, we said
I would look all night, look all night

Let's get sad, get it over
Let the weight fall off our shoulders
'Cause my heart is beating slower
Let's just go away, go away
Let's get sad, get it over
'Cause our happiness ain't getting any closer
Don't want to, but we got to
Let's just call it a day, call it a day

My memories repeat like melodies
They play again and again, that brings me to my knees
Heartache, heartbreak, damage done
Now I need to get away but there's nowhere to run

We try but we should leave it alone now
It's gonna hurt but we'll get over it somehow
There's no point in working it out
Nothing left to say, left to say

Let's get sad, get it over
Let the weight fall off our shoulders
'Cause my heart is beating slower
Let's just go away, go away
Let's get sad, get it over
'Cause our happiness ain't getting any closer
Don't want to, but we got to
Let's just call it a day, call it a day

You say that in time all the pain, it will fall
But if that's the case, let's not waste time at all
'Cause now my sense is, turn around, close the door
I'll be on my way

Let's get sad, get it over
Let the weight fall off our shoulders
'Cause my heart is beating slower
Let's just call it a day, call it a day
Let's get sad, get it over
'Cause our happiness ain't getting any closer
Don't want to, but we got to
Let's just call it a day, call it a day

Confused, I'm twisted in my blues
I haven't slept for days, and I need new shoes
Daylight, daylight, daylight, come
'Cause I need to get away, please show me the sun
