

# No Goodbyes

Blue

Yeah no more tears, no more goodbyes

Don't you know it's time for me to go  
Even though it hurts to see you cry  
But don't you know you'll never be alone  
If you hold me deep inside (oh yeah)

You know that I would rather stay  
But now before I turn away  
There's one last thing to you  
I want to say

Baby there's no goodbyes  
I'll always be right by your side  
I may be far away  
You know that my heart will stay, with you, always

Now I've pictures in the distance  
Even though it seems a million miles  
But there'll be no space between us  
I'll be there everytime you close you eyes. Yes I will (oh)

You know that I would rather stay  
But now before I turn away  
There's one last thing to you  
I want to say

Baby there's no goodbyes  
I'll always be right by your side  
I may be far away  
You know that my heart will stay, with you, always

I don't wanna say words that people say  
Cos when I go, my love will stay

In the heart of you to help you make it through  
Baby that is why there can be no. No goodbyes

(2x):

Baby there's no goodbyes  
I'll always be right by your side  
I may be far away  
You know that my heart will stay, with you, always

You know what no more goodbyes
