I spent the hundred thousand on the pennant
Don't want the Cuban liquor, want the tennis
I'm in the bitch mouth like a dentist
I bought a big house, I ain't rent it
Eyes open, I can see through the blindfold
He a pussy, probably eat with his eyes closed
Hit the lab, back to work with a jab
Put the work, back to work in a bag
I got bitches at the house, they ready to spaz
I only bought the bitch a bag cause she bad
She so happy with me, you goin' outside
Blueface and DDG back on that gas
Roll head if I come to not crash
She keep on suckin' me
She know that I'm buzzin' just like a bumblebee
My exes got clout and it's just because of me
She know I'm a boss, she can never humble me

Nigga, we winning, we poppin' up
Sell all them packs and then drop it off
He talkin' shit, we gon' knock him off
Get dirty money and wash it off
Please do not think that we worried, no, not at all

Nigga we winning
Faultin' inches, I put inch on my bitches
Dirty money came from racks to riches
She don't listen, then I give her detention
My ex bitch just call for extension
Don't fuck with snitches, terminatin' the racks
Pull up to the club, I'm throwin' in racks
Bitch, I'm a dog, I beat up the cat
Back in the day, I was trapped in a trap
Now I'm winning, put my team on the map
Turn your bitch around and give her a clap

Nigga, we winning, we poppin' up
Sell all them packs and then drop it off
He talkin' shit, we gon' knock him off
Get dirty money and wash it off
