

## Aspen, New York

Bluejuice

Young mothers, schoolgirls and me  
Exercise and therapy  
Endless possibilities  
So it's funny I'm still sleeping in  
Girl, I am still missing you  
I can't take the interview  
I don't know what else to do  
What's happening, New York?

Take a holiday  
'Cause I can hear them calling  
What's happening, New York?  
What's happening, New York?

Young mothers, schoolgirls and me  
Exercise and therapy  
There is nothing on TV  
So it's funny I'm still sleeping in  
Girl, I am still missing you  
I can't take the interview  
All my friends are moving too  
What's happening, New York?

Take a holiday  
'Cause I can hear them calling  
What's happening, New York?  
What's happening, New York?  
Take a holiday  
'Cause my life turned out boring  
What's happening, New York?  
What's happening, New York?

Days go by the same again  
Days go by the same again  
You and I are separate  
And sometimes I can't stand the wait  
I have got to get away  
Just phone all night and sleep all day  
Well, that doesn't sound like paradise to me

Take a holiday  
'Cause I can hear them calling  
What's happening, New York?  
What's happening, New York?  
Take a holiday  
'Cause my life turned out boring  
What's happening, New York?  
What's happening, New York?

What's happening, New York?  
What's happening, New York?  
What's happening, New York?  
Give me Aspen in New York
