

I said I'd quit, but I think you're cool, so turn me on
I think you're the shit when I drop your favourite song
Trying to get me back with another man when you hit the floor
I'm out to kill with another one, who asked for more?
Give up what's needed, we're superseded

And so we stopped and made a place just to believe
But when you kick that shit, it's hard to see for free
I'll tell you now, I'll tell you now and I'll tell you twice
Some kids would think what they were made to play is so nice
Give up what's needed, we're superseded

But before all that
You were kind of evil,
But before all that
You were kind of evil, I was just the sequel

I said I'd quit, but I think you're cool, so turn me on
I think you're the shit when I drop your favourite song
Just trying to get me back with another man when you hit the floor
I'm out to kill with another one, who asked for more?
Give up what's needed, we're superseded

But before all that
You were kind of evil, in playing the people
But before all that
You were kind of evil, in playing the people
But before all that
You were kind of evil, I was just the sequel

Didn't wanna do it, no way, no
Didn't wanna do it, no way, no
Didn't wanna do it, no way, no
Didn't wanna do it, no way, no
Didn't wanna do it, no way, no
Didn't wanna do it, no way, no
Didn't wanna do it, no way, no
