

## On My Own

Bluejuice

Now when it starts at the very moment, it gets dark  
I play the keys and I hear the melody again  
And even though I know that it's over  
Even though I know that it's done  
I play the keys and hear the melody again  
On m

On my o-o-o-o-o-own  
O-o-o-o-o-own  
O-o-o-o-o-own  
O-o-o-o-o-own

Now there's a ghost of you in everything I do  
I play that song and I can hear you sing along  
And even though I know that it's over  
Even though I know that it's done  
I play that song and I can hear you sing along

On my o-o-o-o-o-own  
O-o-o-o-o-own  
O-o-o-o-o-own  
O-o-o-o-o-own

I'm stepping out, up out of the darkness  
Sending out a life line, someone leave a light on for me  
I'm stepping out, ready to discover it  
Sending out a life line, is anybody out there for me?

And even though I know that it's over  
Even though I know that it's done  
Even though I know that it's over  
Even though I know that it's done  
Even though I know that it's over  
Even though I know that it's done  
Even though I know that it's over  
Even though I know that it's done  
Even though I know that it's over  
Even though I know that it's done  
Even though I know that it's over  
Even though I know that it's done  
Even though I know that it's over  
Even though I know that it's done
