

Shadows

Blues Pills

In the shadows silence sings
Feel the chill that this cold night brings
I don't know where this old life leads
In my heart where my sorrow bleeds

In the whispers of the night
Where the tales unfold
There's a twinkle in your eyes
And it shines like gold

Break my chains and set me free
Raise my voice like a devil's scream
Shout it out loud into the sky
It's my time
Wake me up and let me see
Raise my voice like a devil's scream
I'm gonna let my spirit fly
It's my time

In the moonlit night, where the darkness beams
Taste the light, rising over me
I don't know, where this old path weaves
Come tomorrow, I'm gon' hold the keys

In the whispers of the night
Where the tales unfold
There's a twinkle in your eyes
And it shines like gold

Break my chains and set me free
Raise my voice like a devil's scream
Shout it out loud into the sky
It's my time
Wake me up and let me see
Raise my voice like a devil's scream
I'm gonna let my spirit fly
It's my time

Break my chains and set me free
Raise my voice like a devil's scream
Shout it out loud into the sky
It's my time
Wake me up and let me see
Raise my voice like a devil's scream
I'm gonna let my spirit fly
It's my time
