

Circles

Blues Saraceno

Everyone is singing
All the children smile
And hum along

Days are so much better
Love that once was old
Is new again

We Go
Around and Around and Around and Around
And Around and Around ' and Back Again

We Go
Around and Around and Around and Around
And Around and Around ' and Back Again

In Circles

Life will always change
Nothing stays the same
As we learn and grow

Hope is all we need
When all the things we dream
Feel impossible

And then, We Go
Around and Around and Around and Around
And Around and Around ' and Back Again

We Go
Around and Around and Around and Around
And Around and Around ' and Back Again

In Circles
