

Evil's on the Run

Blues Saraceno

Oh my love
It's all over now
And we never
Never had a chance

Oh my love
It's all over now
And we're never
Never coming back

What have you done
What have you done
What have you done
When your favorite color's black
Evil's on the run

Oh my dear
Will you weep for me now
The writing
The writings on the wall

Oh my dear
Will you weep for me now
Cause the levee
The levee's 'bout to fall

What have you done
What have you done
What have you done
When your favorite color's black
Evil's on the run

As your last breath slips away
And falls deeper to the grave
Will your secret have someone to tell
Will you pray
Will you be saved

What have you done
What have you done
What have you done
What have you done
What have you done
What have you done
What have you done
When your favorite color's black
Evil's on the run
Evil's on the run
