

Let's Ride

Blues Saraceno

Ridin round this one horse town
In a beat up automobile
Your drivin along with your radio on
And your hand up on the wheel
You're hangin out just thinkin bout
What it means to be young and fine
So take a chance, hit the gas
And leave this town behind

Let's ride
Let's ride
Let's ride
And feel the open road

Gettin right on your motorbike
As you head on down the way
The workin man's got bills to pay
It don't ever seem to change
Dreamin bout, gettin out
And crossin that state line
So take a chance, just hit the gas
And leave it all behind

Let's ride
Let's ride
Let's ride
And feel the open road

Let's ride
Let's ride
Let's ride
And feel the open road, ride the open, feel the open

Rollin round this backwood town
Till you just can't take it no more
The time has come to get it done
And head on out that door
You're holding out, and counting down
It's time to get young and wild
So have a blast, light em up
And leave this town in style

Let's ride
Let's ride
Let's ride
And feel the open road

Let's ride
Let's ride
Let's ride
And feel the open road

Let's ride
Let's ride
Let's ride
Feel the open road

Let's ride

Let's ride

Let's ride

Feel the open road, ride the open road

Feel the open road, ride the open road
