Blur

You put me together, break my bones
I wish that I'd never seen you now
So happy together, would break my bones
I wish that I'd never seen you now

I, I've got to get you close to me
I've got to get you close to me

Spinning together, watch us go
I wish that I'd never seen you now

I, I've got to get you close to me
I've got to get you close to me
I, I've got to get you close to me
I've got to get you close to me, to see through me
I've got to get you close to me [x2]
