

# Come Together

Blur

I don't understand  
You're walking over me  
All over me, to you  
Well you must be mad  
And you know you are  
You should have known  
I'd do anything for you

[chorus]  
So why, why  
Can't we come together? why

Inside my head  
It's all been taken out  
By you and do I care  
Well you know I do  
You should have known  
I'd do anything for you

[repeat chorus]

Now it's all been said  
And you know it all  
Then you should have known  
I'd do anything for you  
For you

[repeat choorus]
