I'm All Over

Blur

I always knew that there would be someone somewhere
Who had it in for me
I always knew that there would be no-one nowhere
Who was anything like me
I'm all over
All over
All over
I'm the only one
I'm hanging around
Going nowhere
Waiting for it to happen to me
I always knew that there would be no-one nowhere
Who was anything like me
I'm all over
All over
All over
You're the only one
I always knew that there would be someone somewhere
Who had it in for me
I always knew that there would be no-one nowhere
Who was anything like me
I'm all over
All over
All over
You're the only one
