

# The Ballad

Blur

I just looked into my life  
And all I saw was that you're not coming back  
Oh, can't you see when the ballad comes for you  
It comes like me?  
But I won't be afraid  
I can't seem to find you in this midnight parade  
I know it's all true  
When the ballad comes for me, it comes like you

Up close  
I fell in love with you (I met you at an early show)  
You fall and  
I'll fall along with you (We travelled 'round the world together)

I just looked out to the point  
Where the words they are hitting me  
In a full-on assault  
Oh, can't you see when the ballad comes for you  
It comes like me?  
Well, I know I can't change the times  
I know I'm already breaking when I look into your eyes  
Oh, can't you see when the ballad comes for you  
It comes like me?

Up close  
I fell in love with you (I met you an early show)  
You fall  
I'll fall along with you (We travelled 'round the world together)
