

Bleeding out

BlutEngel

You're like poison
And you're trying to break me and slow down
I am suffering and you watch me bleeding out

Bleeding out
Bleeding out

Get away from me
There's no reason to stay for you
Get away from me
There's no reason to stay for you
Get away from me
There's no reason to stay for you
Get away from me
There's no reason to stay for you

Get away from me
Get away from me

My mind explodes and my eyes get wet
I'm so tired of the voices in my head
They tell me to stop and let it all go
I'd better kill myself, I can't take it anymore

Get away from me
There's no reason to stay for you
Get away from me
There's no reason to stay for you
Get away from me
There's no reason to stay for you
Get away from me
There's no reason to stay for you
