City Lights (City Nights Remix by Ashbury Heights)

BlutEngel

I see the city lights, they're burning in my eyes
It's the city of angels, the city of loneliness
People walkin' down the streets, their faces look like stone
I know that everyone hides a secret wish inside

Spread your wings and fly tonight
Don't be afraid, I'll show you how
Kill the fear inside your mind
Leave your troubles far behind

Don't waste your precious life
In a world so cold and grey
Kill the fear inside your mind
We were once like you
