

Cursed

BlutEngel

Our time is passing by too fast
Don't fight the destiny
The world stands still for tonight
Don't let me go

Forget the sorrow and the fear
In dreams I'll stay with you
Tomorrow's still so far away
Guide me through my painful life

I kiss the tears from your skin
There's no escape for us
I hold you till the morning comes
I'm falling apart in this dark cold night
Must let you go

I curse the day
I curse the night
Our love will be lost forever
I will never be by your side

I close my eyes, don't want to see
I never knew this could happen to me
I stay alive but tell my why
You saved my soul
I'm always yours
