

Darkness Awaits Us

BlutEngel

(We will rise again someday)

All my life I've been waiting for you
Waiting for you
I felt so incomplete until I met you
Darkness awaits
You feel so lost in this world just like me
Just like me
I want the pain to stop - just like you...

Darkness awaits us
Darkness awaits us

Life is passing by, we will reach our end so fast
All the dreams we had, all the love we felt, crumble to dust
We fall into the void, the world is no place for you and me
Darkness awaits us, we are lost in eternity

Darkness awaits us
Darkness awaits us

You take me by the hand and we let ourselves fall
Let ourselves fall
You and me in an endless sleep

Life is passing by, we will reach our end so fast
All the dreams we had, all the love we felt, crumble to dust
We fall into the void, the world is no place for you and me
Darkness awaits us, we are lost in eternity

We will rise again someday
We will rise again someday

Life is passing by, we will reach our end so fast
All the dreams we had, all the love we felt, crumble to dust
We fall into the void, the world is no place for you and me
Darkness awaits us, we are lost in eternity
