

Give Me

BlutEngel

Alone in the dark I'm longing for you
But all I can do is pray
that you will be by my side
I'm searching for you
Will I find you some day?
Please don't leave me this way
Hold me tight
But there is nothing left to stay

Give me hope, give me time, give me love
Save my heart from the storm
Give me hope, give me time, give me love
I won't cry anymore
Save me from the depth of my darkest dreams
Give me hope, give me time, give me love
Cause I'll die without you tonight

I'm looking at you
and I'm waiting for your embrace
But all I can see
is a fire in your unholy eyes
Why you can't remember the time
that we've shared?
All these beautiful moments are gone
and there's nothing left to stay

Give me hope, give me time, give me love
Save my heart from the storm
Give me hope, give me time, give me love
I won't cry anymore
Save me from the depth of my darkest dreams
Give me hope, give me time, give me love
Cause I'll die without you tonight

Give me hope, give me time, give me love
Save my heart from the storm
Give me hope, give me time, give me love
I won't cry anymore
Save me from the depth of my darkest dreams
Give me hope, give me time, give me love
Cause I'll die without you tonight

Give me hope, give me time, give me love
Save my heart from the storm
Give me hope, give me time, give me love
I won't cry anymore
Save me from the depth of my darkest dreams
Give me hope, give me time, give me love
Cause I'll die without you tonight
